Introduction

Dhaka International University (DIU) is one of the leading, familiar and note-worthy private universities in Bangladesh which was established on 7th April 1995. It is a non-profitable institution having strict academic discipline. This university was founded by Late Alhaj Professor Dr. A. B. M. Mafizul Islam Patwari, Former Chairman of the Department of Law, University of Dhaka, Bangladesh.

It is recognized that Dhaka International University is such a private university, which was founded by a person who was a renowned humanist and academician. He established this university with high hopes and aspirations to disseminate knowledge and thus to extend the horizon of knowledge. That is why, the motto of DIU is the universal adage, "Knowledge is Power". DIU generates this power of Knowledge in an individual through teaching-learning, training, research and guidance by using modern, pragmatic and well-designed curriculum and syllabus.

DIU and Its Founder

Dhaka International University was founded by Late Alhaj Professor Dr. A.B.M. Mafizul Islam Patwari. He was a Professor of the Department of Law, University of Dhaka, Bangladesh. It may be observed that Dhaka International University is perhaps the only private university which was established by a person who was basically an academician.

He established this university with high hopes and aspirations to disseminate knowledge and thus to extend the horizon of knowledge. That is why, the slogan of DIU is the universal adage, "Knowledge is Power." DIU wants to generate this power among individuals through teaching, training and guidance by using age worthy, pragmatic and well-designed curriculum and syllabus.

Mission, Vision & Objectives

Mission	The mission of DIU is to produce capable leaders in the respective field of study who can meet the challenges of present dynamic world. It wants to create multidisciplinary knowledge, communication and interpersonal skills at the highest level of excellence among the students which will make them honest, sincere and dedicated in their thoughts and deeds.
Vision	The vision of DIU is to contribute to the nation by producing age-worthy, pragmatic and eligible graduates through continual innovation in education and research.
Objectives	Provide international standard education focusing on academic programs, policies and planning to serve the students.
	Up-hold the national history, heritage, culture, social and ethical values among students, academics and non-academic staff.
	Provide high quality and comprehensive educational training opportunities compatible with changing needs of the students.
	Promote awareness and realization of the importance of higher education and research in achieving the social and economic development at affordable cost.
	Provide various exciting and rewarding career opportunities, which are greatly needed for our rapidly developing country.
	Foster a congenial and stimulating learning environment in which students are motivated to become self-confident, committed and adaptable graduates.
	Introduce programs with the national and international universities, academic departments, colleges and relevant organizations in achieving academic excellence.
Enrich sustainable faculties by providing training, workshop, seminar and symposium in relation to distinctive curriculum at home and abroad.	

Debating Club

Dhaka International University has formed Dhaka international University debating society for the development of the students .DIUDS has glorious background .DIUDS has achieved first position in several times at the national debate competition .

Computer Programming Club

Dhaka International University Computer and Programming Club is the largest club and one of the prestigious clubs in the university. In short, this club is named DIU CPC. We work together as a family to enlighten students knowledge in every field of computer science.

Cultural Club

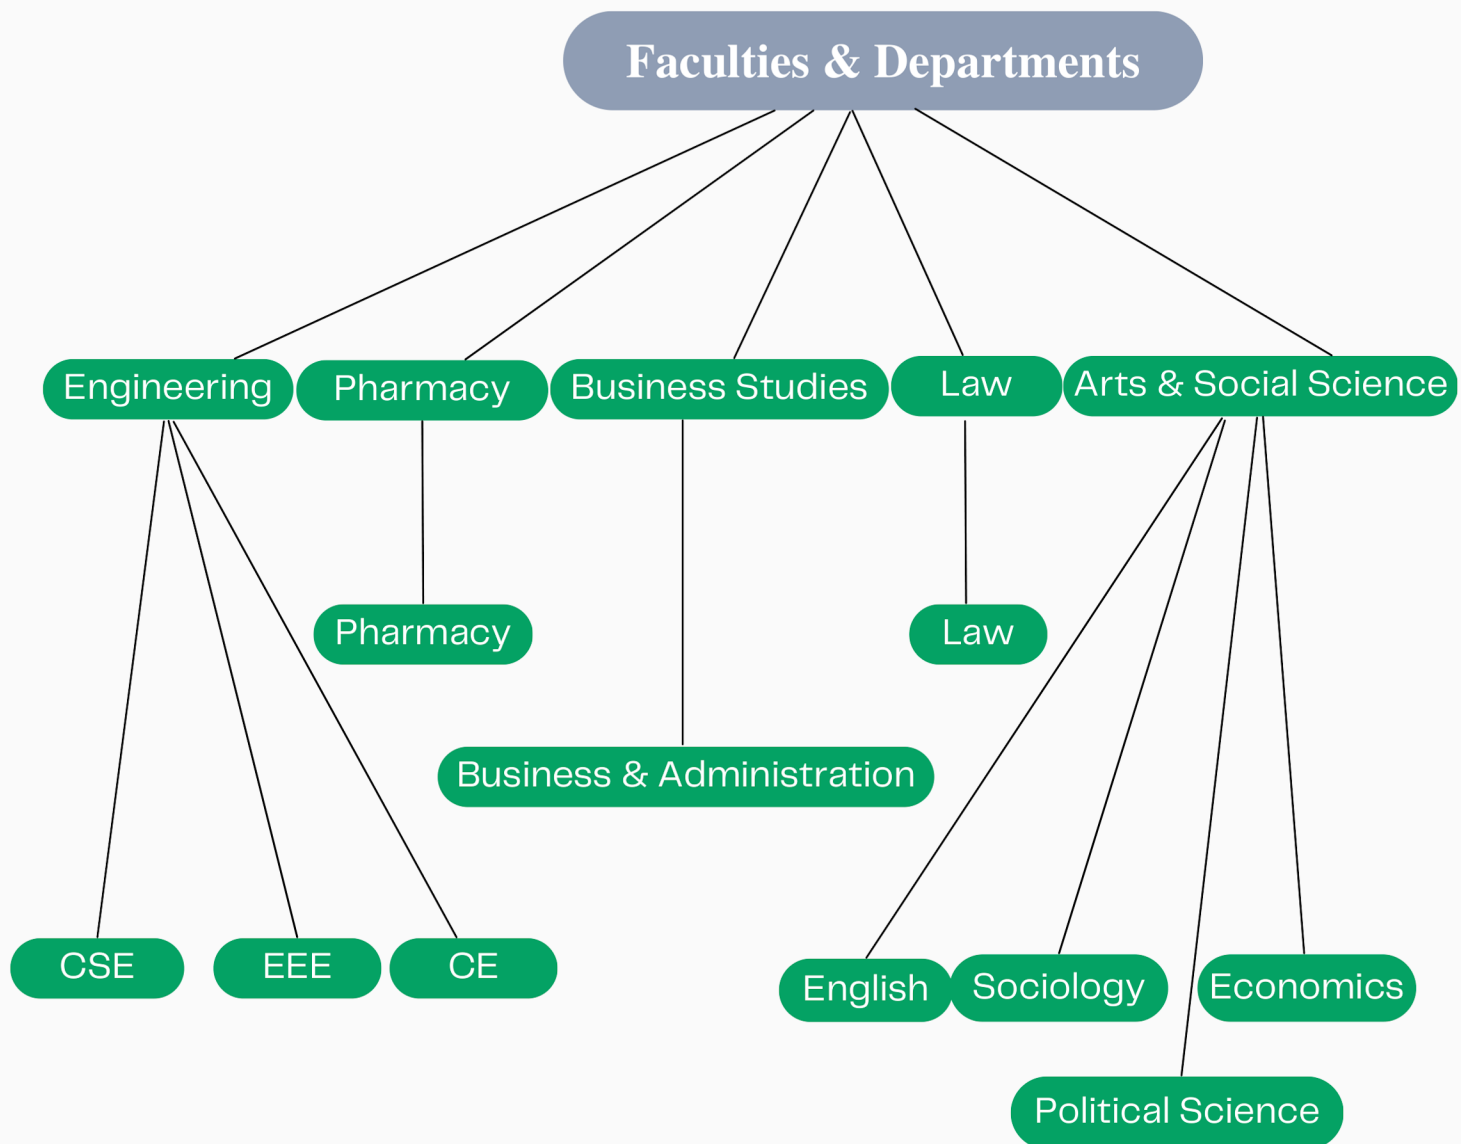

Dhaka International University has formed DIU cultural club. Cultural club organizes cultural competition for the students. Cultural club also organizes seminar and workshops related to cultural affairs for the students. Cultural club team members participate in different national and international cultural competition.

Sports Club

Dhaka International University sports club organizes different sports competition for the students every year. Sports club team members participate in different national and international Sports competition.

Research Cell

Tobacco Control & Research Cell (TCRC)

Dhaka International University formally formed various separate cell for development of DIU, Society as well as Bangladesh. Those cells are formed for work on specific purpose. Those cells actually work with various alliance, Government, non-governmental and international organizations work together.

TCRC

Stop tobacco cultivation and grow food for creating a better living place for the next generation,” with this vision Dhaka International University has established Tobacco Control and Research Cell (TCRC) on March 2nd 2013. Bangladesh is a small and densely populated poor country having about 153.2 million people, about 80 percent of whom are living in rural areas. This country is a disaster-prone area having been stricken by drought and flood with a range of health and environmental problems happening from dengue and cholera to arsenic contamination of the water supply. It should come as no surprise, then, that tobacco control has neither gained much attention nor been considered a priority. With so many competing causes of disease and with nearly half of the population living below the poverty line and consuming less than 2,122 calories per day (Bangladesh Bureau of Statistics 2012a), tobacco has generally seemed too remote and insignificant issue to be on the country’s agenda of concerns. Yet tobacco use is widespread and increasing rapidly and knowledge about the harm it causes to health is very low. Though, other causes of death still dominate tobacco use contributes a nontrivial amount to the overall burden of disease and death. And it has become clear and significant that immediate negative effects on the welfare of poor families, when scarce resources that could be used for food are spending on tobacco.

Research Cell

Bangladesh Center for Governance and Development (BCGD)

BCGD

Bangladesh looks forward to becoming an advanced economy by 2041, and it requires that the country have professionals with an adequate understanding of the evolving governance and development dynamics. Therefore, there is always an overarching need for critical research on governance and development issues such as nationwide fast mobility and communication for accelerated economic growth, climate change, river erosion, reduced upstream flow of the rivers, salinity, migration, displacement, increased inequality, unemployment, social disintegration, and so on. Within this context and formalization with the community engagement, the university has established the Bangladesh Center for Governance and Development (BCGD). BCGD's vision is to become a think tank and academic hub on public policy, climate change and migration studies across the globe. To create evidences for strengthening the public policies on governance and development through conducting research on policy matters and academic areas at local, national and regional levels. BCGD's mission is to analyze public policies, governance and development issues, national and regional development priorities, challenges posed by the 41R, climate change, migration and displacement. Establish networks and partnerships with national, regional and international agencies and institutes for both generation and dissemination of knowledge, sharing of experiences and capacity building.

Research Cell

Institutional Quality Assurance Cell (IQAC)

IQAC

In order to enhance and to get a continuous patronage of Quality Assurance (QA) culture at different entities/departments of Dhaka International University (DIU), the Institutional Quality Assurance Cell (IQAC) was constituted on 01 July 2015. The IQAC consists of seven (07) entities namely Law, CSE (Computer Science & Engineering), English, EETE (Electrical, Electronics, & Telecommunication Engineering), Business Administration, Pharmacy and Sociology. It is obvious that IQAC is a mutual endeavour between Dhaka International University and University Grants Commission (UGC), Bangladesh which is resolutely committed to ensure the practice of continuously improving quality culture, demonstrate responsibility and enhancement and thus, to satisfy the different stakeholders (Existing Students, Alumni, Academic and Non-Academic Staffs, Employer, etc.). The quality assurance areas covered by IQAC are based on governance, curriculum content design and review, student admission, progress and achievements, physical facilities, teaching-learning and assessment, student support services, staff and facilities, research and extension, as well as process management and continuous improvement. Having set up IQAC, a lot of workshops, training on different events and meetings are being conducted for improving the existing quality culture at different entities of this university. It is mentionable that IQAC itself conducted four (04) QAC (Quality Assurance Committee) meetings, 15 meetings which are related to IQAC fund, as well as 22 academic and non-academic training/workshops based upon Block Allocation till Nov. 2017. Moreover, to maintain an upgrading quality culture on teaching-learning methods and curriculum design, SA (Self-Assessment) Committees of different entities also conducted a lot of meetings with their faculty members.

Research Cell

Centre for Excellence and Career Development (CECD)

CECD

Centre for Excellence and Career Development (CECD) of Dhaka International University is working with the goal to develop students' language proficiency, creative writing, professional skills and career guidance. CECD language experts focus on conducting student-centered, creative language teaching techniques, and individual guidance based on classroom activities in developing students' language proficiency. This centre also helps the students enhance their personal qualities for the development of their career paths to choose from aspiration. It incorporates the students in movie fest, language club, workshops, seminars, and conferences regularly, where they can get the touch of national and international professionals. The centre also encourages the learners to have the students' creative writing by dint of publishing literary magazines, which would build students' innovative qualities and make them unique throughout the competitive world.

Research Cell

Social Business Academic Cell (SBAC)

SBAC

Nobel Peace Prize Winner Prof. Muhammad Yunus wants to remove poverty from the world. For this reason, he launches a new business for helping for helping the poor which is known as social business is a cause driven business. In a social business, the investors or owners can gradually recoup the money invested, but cannot take any dividend beyond that point. The purpose of the investment is purely to achieve one or more social objectives through the operation of the company; no personal gain is desired by the investors. The company must cover all cost, make a profit, and at the same time achieve a social objective, such as, healthcare for the poor, housing for the poor, financial services for the poor, nutrition for malnourished children, providing safe drinking water, introducing renewable energy, etc. The impact of the business on people or the environment, rather than amount of profit made in a given period measures the success of a social business. sustainability of the company indicates that it is running as a business.

International & National Collaboration

The Union

International & National Collaboration
